

Sliding Shower Enclosures

Skyline Series

The Skyline shower enclosure is a dramatic new take on the sliding door.

- Instead of hiding the rollers up inside a track, the sliding panel glides beautifully on large stainless steel rollers mounted directly to the glass.
- The unit features one fixed panel and one sliding panel.
- A return panel is available for either side of the enclosure
- Vinyl extrusions and a dam strip can be added to help water from escaping the shower enclosure (see Optional Features and Technical Information tab below)
- You can mix and match patterned and cast glass for the shower panels to achieve a look unique to you.

The Skyline hardware can support 3/8" glass, while the larger Skyline Ultimate hardware can support 1/2" glass.

Sliding Door

Cardinal Shower Enclosures is a full service domestic manufacturer of shower enclosures, offering an extremely wide selection of models, finishes and glass options, from patterned to cast glass. Our enclosures are engineered to the highest possible standards for maximum reliability, and carry a lifetime guarantee against defects in craftsmanship and materials on extruded aluminum parts. We also produce all of our stunning cast glass in-house, ensuring the best quality for your enclosures and architectural glass applications.

Cardinal Shower Enclosures offers several trim levels of sliding door enclosures, from the basic Cardinal Builder series up to the luxurious Heavy Euro and Apollo series. Framed sliders have metal all the way around the glass while frameless sliders have clips holding the top of the glass.

Be sure to check out the Cardinal S-Curve option. It can dramatically change the look of a basic shower enclosure.

Euro Series

The Euro series are available in FIVE trim levels:

- **Light Euro Series** - Featuring Light Euro header, 3/16" glass and clamp-on single towel bar
- **Traditional Euro Series** - Upgrades with 1/4" Clear glass and through-the-glass towel bars
- **Euro Series** - Upgrades to our heavy duty header suitable for taller and wider units
- **Platinum Riviera Euro Series** - Upgrades to the Platinum header & rollers (see below) and 5/16" slider glass
- **Heavy Euro Series** - Upgrades with the heavy duty Euro header and 3/8" glass

Optional features include the Cardinal S-Curve glass and recessed finger pulls.

The Heavy Euro series can accommodate our patterned 3/8" glass or a 3/8" Venetian Cast Glass pattern.
